BULLETIN

Data Coordination Center Activities

DSWG Data Harmonization Tools and Guidelines

The following resources have been developed with input from our U01 and NIH partners:

- **Information Pamphlet** – "Cheat sheet" for DCC and NDA Standards
- **SDoH and Demographics**– guidelines and structures established in accordance with NDA Standards
- **Medications** - guidelines for medications derived from EHRs and self reports

Data Submission Assistance

- **Yale/NDA DSA** – completed, gives DCC permission to submit data on behalf of U01s
- **Data Submission Venues –** SFTP for submitting large files is ready and a web-based portal (for small files) will be available soon. Contact christian.horgan@yale.edu
- **Data Submission Account Set Up** - please submit 2 names from your U01 for a Yale NetID. Contact polly.painter@yale.edu

Software

- **NDA Data Structure Validator Tool** – identifies and validates NDA data structures and elements
- **R-based Submission Tool** – An R package that allows you to create NDA submission templates from REDCap, Qualtrics, etc. It ensures alignment with NDA data structures. Requires a Github account to access. Contact joshua.kenney@yale.edu

Community News

Congratulations to Dr. Adriane Soehner (PPSN) on the birth of her son this December! Welcome to the IMPACT-MH team, Nolan.

Reminders

- **Data managers**
  - Please follow up with your contract offices to ensure that DUAs are completed ASAP
- **REDCap forms are coming soon!**
  - Use DCC supplied forms for data collection
